

Charter Township Of Kalamazoo

2015 Annual Fire Department Report

1720 Riverview Drive, Kalamazoo, Michigan 49004 (269) 381-8080

The Year in Review

By Chief Dave Obreiter

We proudly submit this 2015 annual report for the Township of Kalamazoo Fire Department. As I reviewed the details of this report, I was filled with great appreciation and pride for the professionalism, accomplishments and actions of the men and women that make up our team.

As we finished the year, it marked the third time in the last four years that we exceeded the historical highest response year of the department. In 2012, the record of 1,681 responses was set. In 2014, we exceeded that record by 96 responses, ending the year with 1,777 responses and in 2015, we ended the year with 1,792 responses.

We continue to actively participate in several collaborative efforts and organizations such as Kalamazoo County Fire Chiefs, Western Michigan Association of Fire Chiefs, Michigan Association of Fire Chiefs, Kalamazoo County Hazardous Materials Response Team and Kalamazoo County Fire Investigation Response Team. This concept allows for the sharing of information, ideas and resources between departments and communities to reduce the cost of providing emergency services, while still providing a quality and reliable response to the needs of our citizens.

Expanding our intergovernmental cooperation and service to the residents of Kalamazoo Township and the City of Parchment, an Intergovernmental Fire Protection Response Agreement was formalized in October of 2015. This agreement streamlined the emergency initial aid between municipalities and should reduce the response times to reports of fire, smoke or natural gas leaks inside a building.

Community involvement remains a high priority with our fire department members, as witnessed by our member's voluntary participation supporting larger events such as the Westwood Ice Cream Social and the Great Lakes Burn Camp. The voluntary participation by our members and represented by the firefighters associations at each of the fire stations is a direct reflection of their desire to serve our community above and beyond their roles as an emergency responder.

On a special note, the 75th Anniversary of the Eastwood Fire Station was celebrated on October 3, 2015. The celebration was attended by over 500 residents, firefighters and friends. This showing was a true testament of the long term professional and dedicated services provided by our Township of Kalamazoo employees.

In the appendix section of this report, you will find a roster of our assigned personnel as well as the years of service and experience that they provide our department. In addition to the list of personnel, you will find a listing of awards that were presented to our members in 2015 through our Firefighter Recognition Program. The list of awards recognizes the actions above and beyond the general actions expected of our personnel.

2015 ANNUAL REPORT

Fire Department Program Descriptions

The fire department is managed by categorizing certain aspects of its operation into sections and assigning a point of contact that is responsible for the management of that section. All personnel assigned a section of responsibility coordinate the management of that program with the fire chief. Each section is identified below along with a description of its area of responsibility.

Fire Department Management – The Fire Department Management section is made up of our six full-time fire department personnel and consists of the fire chief, deputy fire chief, two battalion chiefs, fire marshal and fire department maintenance supervisor.

The management section is responsible for the annual budgeting of programs and resources by setting program priorities, department goals and the coordination of constructive efforts between the fire department management section and all fire department personnel.

Emergency Response – The Fire Department Emergency Response section is managed by our Fire Department Management team and is responsible for maintaining a cost effective, reliable and diverse quick-response network of trained personnel and strategically placed fire department vehicles and equipment. The Township of Kalamazoo Fire Department responds to all calls for service such as medical and fire emergencies, as well as non-emergency calls for service such as arcing electrical wires and carbon monoxide alarm activations. The Township of Kalamazoo maintains four fire stations (Northwood, Eastwood, Lakewood and Westwood) and staffs all stations with the exception of Lakewood with a minimum of one firefighter/driver twenty-four hours a day, seven days a week. Emergency response to the Lakewood neighborhood is provided under written agreement by the Comstock Township Fire Department, which operates and responds in the same manner as the Township of Kalamazoo Fire Department.

The Township of Kalamazoo Fire Department relies heavily on paid on-call personnel for response to all calls for service. In 2015, we averaged about sixty paid on-call personnel on the roster. The paid on-call personnel are assigned to one of the staffed stations and follow a geographically assigned area for response purposes. The paid on-call roster includes assigned duties to selected individuals that appoint them as officers, which is an essential function of personnel management and emergency scene command and control. This concept of paid on-call firefighters has proven to be a cost effective way to utilize only the necessary amount of personnel to handle the type and nature of emergency. The paid on-call personnel receive Township Board approved hourly pay rates only for the emergency responses, scheduled on-

2015 ANNUAL REPORT

Fire Department Program Descriptions (continued)

call time covering one of the staffed stations (fire apparatus driver), scheduled fire department training and special activities such as station maintenance that they attend.

Fire Prevention and Investigation – The Fire Prevention and Investigation section is managed by our State of Michigan certified full-time fire marshal. The fire marshal is responsible for coordinating all fire prevention activities in the Township of Kalamazoo as well as coordinating all necessary fire investigations with the Township of Kalamazoo Police Department. In the summer of 2015 Battalion Chief Matt Mulac began assisting the Fire Prevention and Investigation section on a part time as needed basis with both prevention and investigation duties.

Our Fire Prevention and Investigation program includes new and existing facility fire safety inspections, public safety education programs, construction plan reviews, management of our Knox brand secure key access program for all non-residential facilities, fire ordinance compliance and the tracking and updating of hazardous materials used by facilities operating in the Township of Kalamazoo.

Our Fire Marshal is also an active participant with the Juvenile Fire Setter Program and Fire Investigation Response Team, both programs organized as a collaborative effort thru the Kalamazoo County Fire Chief's Association.

Fire Department Training – Our Fire Department Training section is managed by our assigned department training officer as an additional duty. The training officer is responsible for the planning, scheduling, documentation and coordination of the delivery of our fire department training program to all fire department members.

Our training program is designed to train and maintain a competent roster of emergency responders. Our training program covers a wide range of subjects relating to firefighting, medical emergencies, rescue, hazardous materials, firefighter safety and other response related topics. Our training schedule is driven by State of Michigan requirements as well as local response needs and hazards.

All of our personnel are required to obtain and maintain as a condition of employment, State of Michigan certification as a Medical First Responder and Firefighter I/II. All personnel are also required to maintain a current cardio pulmonary resuscitation (CPR) and automated external defibrillator (AED) certifications from a nationally recognized organization.

2015 ANNUAL REPORT

Fire Department Program Descriptions (continued)

Fire Department Maintenance – Our Fire Department Maintenance section is managed by our Emergency Vehicle Technician certified full-time fire department maintenance supervisor. Our fire department maintenance supervisor is responsible for the inspection, maintenance, testing and documentation of our fire department vehicle fleet and assigned equipment as well as general grounds maintenance at our fire stations.

Our fire department maintenance program is designed to maintain our assets in a ready and reliable configuration while minimizing the maintenance down time of our equipment. Our maintenance supervisor develops and executes a detailed annual proactive preventative maintenance and inspection schedule in an attempt to minimize the costly reactive maintenance mindset. Our maintenance program also ensures that all required third party safety inspections of our vehicles are scheduled and documented. As an associated tasking to the vehicle preventative maintenance program, our maintenance supervisor makes repairs to our vehicles in-house when possible, reducing the down time of the vehicles as well as reducing our overall maintenance budget by reducing costs associated with contracted maintenance.

In addition to vehicle maintenance, our maintenance supervisor also manages the inspection, maintenance and documentation of our powered equipment such as saws, generators and vehicle mounted equipment.

As an additional duty, our maintenance supervisor is responsible for larger exterior maintenance projects at our fire stations such as snow plowing and parking lot maintenance.

Fire Commissioner –The Fire Commissioner is a Township Board Member that is appointed by the Township supervisor.

The Fire Commissioner acts as a liaison between the Township Board and the fire chief in regards to fire department operations, response and budgeting.

Township Trustee Donald Martin remained the Fire Commissioner for 2015.

2015 ANNUAL REPORT

Emergency Response Analysis

In 2015 the Department responded to a total of 1,792 incidents. 1,329 being rescue related, and 463 being fire related.

Wires Down/Arcing = 24		

2015 ANNUAL REPORT

Initial Aid Summary

The Township of Kalamazoo has active Initial Aid agreements with the cities of Kalamazoo and Parchment as well as the townships of Oshtemo and Comstock to provide residents with higher levels of service than each municipality could provide on their own. These levels of service are provided automatically with the receipt of the alarm to provide for immediate response in conjunction with these other agencies as follows:

Comstock Township runs all emergency calls in the Lakewood area and provides an Engine on all calls of Smoke, Fire, or Smell of Gas inside of a structure in Station 2's district. In return, Kalamazoo Township provides a ladder truck for Comstock's commercial and multi-story residential structures.

The City of Kalamazoo provides a Ladder Truck to Kalamazoo Township when there is Smoke, Fire, or Smell of Gas inside of a multi-story residential, or high-hazard commercial structure. In return Kalamazoo Township provides an Engine for the Northwest section of the City of Kalamazoo, a ladder truck to certain structures in the Northeast corner of the City of Kalamazoo, and an Engine to cover City Station 45 on all second alarm fires in the City of Kalamazoo.

Oshtemo Township provides an Engine on all calls of Smoke, Fire, or Smell of Gas inside of a structure in Station 4's district. In return, Kalamazoo Township provides an Engine for the same calls in the Northeast section of Oshtemo's district.

The City of Parchment provides an engine and manpower to back fill a Kalamazoo Township Station during fire incidents where the stations would otherwise be unstaffed. In return, Kalamazoo Township provides The City of Parchment with an Engine on all calls of Smoke, Fire, or Smell of Gas inside of a structure.

2015 ANNUAL REPORT

Mutual Aid Summary

The Township of Kalamazoo also has mutual aid agreements with all municipalities in Kalamazoo County to provide assistance when requested, and in return those municipalities will provide assistance to the Township of Kalamazoo when requested. These requests are not automatic with the receipt of the alarm like Initial Aid; however, these requests can be made at any point during the response to an incident, or while at an incident scene.

The following table is a combined list of Initial Aid and Mutual Aid responses between the Township of Kalamazoo, and other municipalities. The Township gave aid a total of 116 times, and received aid 224 times as outlined below:

	Oshtemo		Comstock		KDPS		Cooper		Parchment	
	Given	Received	Given	Received	Given	Received	Given	Received	Given	Received
January	1	0	10	16	0	0	1	0	1	0
February	2	0	1	17	0	2	0	0	2	0
March	1	1	5	13	0	1	1	0	0	0

Full complement of extrication tools
Automated External Defibrillator
Various emergency medical supplies

844

2009 Sutphen TS-100
1500 Gallon per minute pump
300 Gallons of water
100 foot aerial bucket
Automated External Defibrillator
Various emergency medical supplies

854

2007 Ford Expedition EL
Automated External Defibrillator
Various emergency medical supplies

2015 ANNUAL REPORT

Apparatus Fleet Status

While the average age of our fleet is now eight years old, we have some vehicles which are approaching their replacement dates. We use a replacement date in line with current industry standards in order to plan for vehicle purchases and budget capital improvement funds more efficiently. These replacement dates are used to get the most value out of each piece of apparatus while also replacing them frequently enough to allow for safety and technological improvements to enhance the services we deliver.

- Rescues are replaced approximately every 12 years.
- Engines are replaced approximately every 25 years.
- Ladders are replaced approximately every 30 years.

The table below shows the current timeline of each vehicle, as well as necessary special equipment that must be factored into apparatus purchasing/replacement decisions in order to maintain our current level of service.

Unit	Type	Year	Age	Assigned Station	Projected Replacement	Special equipment
811	Engine	2011	4	Northwood	2037	Foam System
821	Engine	1988	27	Northwood	2016 (Ordered in 2015)	
851	Rescue/Brush Unit	2008	7	Northwood	2028	Water tank & pump for grass fires
812	Engine	2015	0	Eastwood	2040	
842	Platform Ladder	2007	8	Eastwood	2037	Ladder Truck
852	Rescue	2007	8	Eastwood	2022	
813	Engine	2007	8	Lakewood	2032	
814	Engine	1998	17	Westwood	2023	Vehicle Extrication
844	Platform Ladder	2009	6	Westwood	2039	Ladder Truck

856	Maintenance	2009	6	Township	2016	Snow plow
890	Fire Chief	2010	5	Township	2017	

2015 ANNUAL REPORT

Equipment inspection, testing and maintenance

The annual fire department equipment inspection, testing and maintenance are an important function on both the liability and safety sides of our operation. While much of the inspection, testing and maintenance work is done by our trained and certified fire department personnel, some of the work must be done by contracting to an outside service provider.

The following list describes our larger inspection, testing and maintenance projects that must be performed and documented on an annual basis.

Self-Contained Breathing Apparatus (SCBA) – 50 units were inspected and flow tested with only minor repairs needed. Cost: \$3,800

Hydrostatic testing of SCBA cylinders – Cylinders were visually inspected and hydrostatically tested. Cost: \$1,900

Ground ladder testing – All ground ladders carried on fire apparatus were visually inspected and weight tested with only minor repairs needed. Cost: \$1,100

Ladder truck inspection and testing – Both ladder trucks were visually inspected, and functionally tested. Cost of inspection: \$3,900

Breathing air compressor – A visual inspection was made of the breathing air compressor system. Quarterly air samples were taken and sent in for analysis. All test samples passed required quality standards. Cost: \$900

Fire extinguisher inspections (facility and vehicle) – Visual inspection and annual certification were completed on all fire department facility and vehicle mounted fire extinguishers with only a few minor repairs needed. Cost: \$1,000

Fire protective coat and pant inspection/maintenance – When our fire protective clothing develops rips, tears, signs of wear or holes, it must be sent to a certified company for inspection and repair. In 2015, equipment was sent in as needed for inspection and maintenance, reducing the amount of fire protective clothing that needed to be replaced. Cost: \$3,000

2015 ANNUAL REPORT

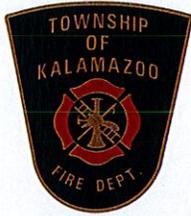

Capital Purchases

Separate from our operational budget, our capital improvement budget helps us maintain our facilities and provide for equipment purchases that enhance our emergency response capability.

Through continued collaborative efforts with adjoining municipality's emergency responders, we make every attempt to not duplicate special equipment and services between organizations. This process has reduced our overall equipment purchase and maintenance costs.

Listed below are some of the capital projects completed in 2015

-Class B uniforms for all personnel	\$5,000
-Replaced 19 Fire Helmets	\$5,000
-Down payment for new Engine (821)	\$200,000
-Payment 1 of 3 for Engine 812	\$70,000
-Flashlights for all self-contained breathing apparatus	\$2,100
-Replaced 6 AED's	\$16,000
-Replaced 15 sets of Fire Bunkers, boots and gloves	\$33,000
-Completed roof replacement at Stations 1, 3 and 4	\$11,000
-Replaced 15 folding tables and 140 chairs for community rooms	\$5,000
-Replaced 7 – 2 ½ inch fire hose nozzles	\$5,000
-Purchased property at 1220 Nassau for Station 2 project	\$65,000

2015 ANNUAL REPORT

Fire Prevention and Code Enforcement

Fire Marshal's Summary 2015									
	Inspections	Inspection Follow Up's	Citations	Fire/EMS Calls	Investigations	Investigation Follow Up's	Public Education Hours	Court Hours	Burn Complaints
Totals	182	48	92	231	23	4	0	11	19

Inspections consist of the physical inspection of commercial occupancies within the Township of Kalamazoo to enforce Fire Codes. The length of time spent on these inspections can vary widely depending on the size and hazards of the occupancy.

Citations are issued as an enforcement tool to ensure compliance with Fire Codes.

Fire/EMS Calls are responses by the Fire Prevention and Code Enforcement division to emergencies when they are in the area during the time of dispatch, thus providing more rapid response to active emergencies.

Investigations are conducted on most fires, and all loss fires, in an attempt to determine cause and origin. Time spent on these investigations also varies widely depending on the complexity of the investigation.

Public Education is time spent in the local schools teaching fire prevention to students throughout the community.

Court Hours are hours spent appearing in court for enforcement of citations, as a witness in arson prosecutions, and anytime subpoenaed as an expert witness.

Burn Complaints are responses to complaints about citizens not burning within the rules outlined in the Kalamazoo Township Burning Ordinance.

2015 ANNUAL REPORT

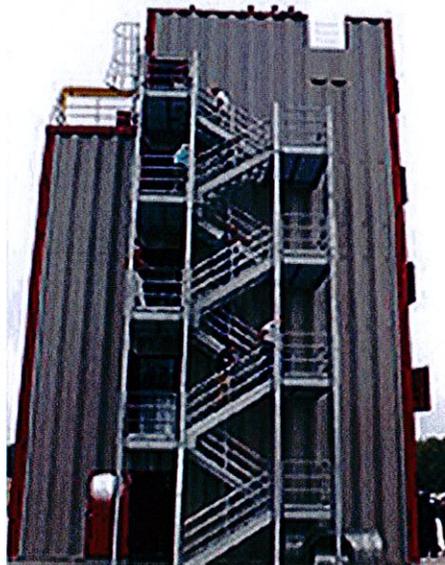

Training

There are three major categories of training within the department. They are initial employment training, department wide training and outside training. All training hours are paid at the current training rate approved by the Township Board.

Initial employment training consists of a 277 hour training academy which covers Firefighting Basics, Hazardous Material Responses, and the Incident Command System. New employees must also obtain their MI EMS license as a Medical First Responder which is a 92 hour training course. In 2015 the Department hired 7 new paid on-call employees.

Department wide training consists of a 3 hour scheduled training every Tuesday in which there is a morning session and evening session to allow our paid on-call personnel to attend the one session that does not conflict with their full-time jobs. Training varies every week and covers all areas of the expected job functions. In 2015, our firefighters spent 3,195 hours performing proficiency training within our department. Firefighters also spent 171 hours maintaining their EMS licenses through EMS specific proficiency training offered by the department.

Outside training consists of any training in the region in which an employee attends with the approval of the department. Normally, if an employee receives outside training, all travel, tuition, lodging, and books are covered by the Township. In 2015, our firefighters spent 1,385 hours receiving advanced training outside of the department training program.

Inter-Governmental Cooperation

Kalamazoo County Hazardous Materials Response Team

The Kalamazoo County Hazardous Materials Response Team (KCHMRT) is made up of various personnel from numerous Fire Departments within Kalamazoo County. Their major goal is to provide a level of service that no municipality could alone provide to its residents without a substantial financial commitment.

In 2015 there were five team members and one executive board member from the Township of Kalamazoo on the KCHMRT as outlined below:

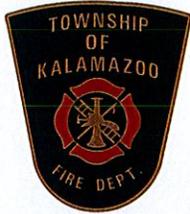

- Fire Chief Dave Obreiter – Executive Board Member
- Captain Todd Martin – Team Member
- Firefighter Dave Weal – Team Member
- Firefighter Derek Bucknell – Team Member
- Firefighter Chris Weidemann – Team Member
- Firefighter Scott Morrison – Team Member

These members have additional training above and beyond the requirements of the Fire Department which take place once a month with the rest of the KCHMRT.

Kalamazoo County Fire Investigator Response Team

The Kalamazoo County Fire Investigator Response Team (KCFIRT) is a group of investigators throughout Kalamazoo County that through their combined efforts and schedules allow continuous availability of investigators to respond immediately upon request following a fire in order to determine the cause and origin. Township of Kalamazoo Fire Marshal Todd Kowalski is a Senior Fire Investigator with KCFIRT.

2015 Fire Department Awards

Firefighter of the Year (2014)

The Fire Fighter of the Year award is presented to a member of the fire department that has been selected from nominations by their peers. The recipient of this award is selected based on their overall outstanding performance as a fire fighter, performance above and beyond that normally expected of a fire fighter, community service and an overall commitment to improving the fire service.

-Awarded to Firefighter Troy Cox

25 Year Service Award

The 25 Year Service Award is presented as a “milestone” in one’s career. It signifies commitment, sacrifice and dedication. It shows an overall individual decision to make a positive impact on an organization. Less than ten percent of our members achieve this accomplishment.

-Awarded to Captain/Fire Marshal Todd Kowalski

Citation for Lifesaving

The Citation for Lifesaving is awarded for the saving of a life through various actions, such as the direct application of first aid. The following members were awarded the Citation for Lifesaving for responses during 2015.

THOMAS BAAS	1	DAVE HOEKSTRA	1	JESSE RODER	1	JOE VANORDER	2
JAIRUS BAIRD	4	MIKE HUBARTT	3	MIKE ROTGERS	3	JIM VARDA	3
CHAD BAKER	3	TODD KOWALSKI	4	LORI STIRN	1	TYLER VAUGHN	1
PHIL CURLEY	1	JOE LANDREVILLE	1	JASON SWITZER	1	MARK WARNICKE	1
